

Ad Agencies & Marketing Firms

When ad agencies need to convey a client's geographic presence, many look to us to help provide custom mapping support to enhance marketing efforts across all media. This support includes map illustrations, mobile applications, and even geographic animations to help drive traffic to brick-and-mortar locations and e-commerce web sites.

SERVICES

- Market planning using GIS software
- Custom static and interactive mapping content for print, web, video, and mobile
- Mapping support for all types of marketing campaigns including promotional products
- Graphic illustrations and animations
- Creative graphic design capabilities in 2-D and 3-D
- Mobile application development
- Pre-press, press check and print brokering services
- Directory development
- Locator map development
- Destination content authoring
- Interactive maps using Google and Bing APIs

"We consistently hear from our readers and local residents that the maps in our magazine are some of the best around. From our perspective they are a valuable resource to both our readers and our advertisers allowing us to offer our advertisers an effective way to illustrate their locations to consumers."
Kristin Russell – Washington Flyer Magazine
