

Museums & Visitor Centers

International Mapping works closely with museum curators and visitor center directors across the country to help them develop interpretive maps and related materials to enhance geographic exhibits, ranging from terrain models and fiber-optic displays to interactive maps and printed wall displays and murals. Some of our clients include the Smithsonian Institution, the Los Angeles County Museum of Art, and the Fredericksburg & Spotsylvania County Battlefields Memorial.

SERVICES

- Custom static and interactive mapping content for all media (print, web, kiosk, video, and mobile)
- Creative graphic design capabilities in 2-D and 3-D
- Language translation capabilities
- Research, compilation and editorial services

- Graphic illustrations and animations
- Promotional products and related graphics
- 3-D physical terrain models
- Movie development (maps, audio, text, photos)
- Display development for flat panels, fiber-optic displays, and digital interactive monitors

"It's a real pleasure to work with Alex Tait and his team at International Mapping. They can be trusted to deliver high quality maps that are well executed. Alex goes above and beyond to consistently provide excellent value for his work and always impresses me with his creativity, professionalism, and attention to detail."

Martin Gamache – National Geographic Society
